Casey Mwangi

An Entry- Level Software Developer

Self-identity is an important part of a young adult's development, as it shapes their sense of belonging during development into adulthood.As a teenager that had completed his National High School exams, Casey was apprehensive on what career path to undertake. His cousin introduced him to basic HTML and CSS which was love at 1st code where he felt at peace pursuing it as a career. In the process of teaching himself how to code it became a passion of wanting to create technical solutions that would help in the modern day society.
